

Thank you for considering The Athletic Edge for your locker needs. Please help us effectively gather the required information so we may provide you with accurate and timely product quotes, product mock-ups and room layouts.

Tell us about your project

- New build Renovation

What is the timeline for this project?

What sport(s) is the locker for? If multiple, please list:

When would you like the lockers shipped:

When would you like the lockers installed:

Would you like a locker mockup? Yes No

If yes, please provide us with your logo in vector format (more information available from our sales team on vector logos).

Would you like a room mockup? Yes No

If yes, please send floor plan with dimensions.

Installation

Would you like us to quote installation? Yes No

Obstructions: Are there any obstructions on the walls that could hinder installation of lockers? (Examples: outlets, light switch, breaker box, heating duct, etc.) If so, please provide detail:

Is there an existing toe kick? Yes No

If no, would you like our installer to provide the toe-kick installation, or will you have that done before our team arrives?

What material would you like the toe-kick to be made from? This can match the material of the lockers, or it can match already existing base for the rest of the room.

Please attach architectural drawings with accurate measurements of each wall/space for your locker room(s).

LOCKER PROJECT

LOCKER PROJECT

How would you like to finish off corner in the room? (if applicable)

Options:

- Boxing off the corners with material to match lockers
- Building a custom cabinet or shelf unit

Delivery

Does your facility have a dock or access to a forklift to unload the lockers?

Yes No

If not, we will need to have a truck with a lift-gate. Additional charges may apply.

Is the locker room on the ground level?

Yes No

If no, is there a freight elevator to haul the lockers to the locker room?

Yes No

Does your facility have any restrictions getting to the location?

Yes No

For instance, is it located in a downtown metropolitan area? Most of our shipments arrive on a semi-truck with a 53' trailer. If there is limited access to your facility, please let us know of any issues that may arise during delivery. There may require extra charges for shipping.

Please keep in mind our installer is only responsible to install the lockers and any finishing aspects that directly pertain to lockers. Our installer will not be responsible for connecting any electrical, HVAC, flooring, any other specialty issues. Those things will need to be taken care of by a professional in that area of expertise.

Will there be staff available to unload the lockers?

Yes No

Standard delivery is quoted dock-to-dock and requires someone at your facility to unload the truck.

Would you like white-glove delivery?

Yes No

White-glove delivery includes a phone call to confirm delivery appointment, two-man delivery and placement in your room of choice, as well as unpacking and debris removal. This will be an additional charge.

Does your facility have a place to put pallets and packaging material from the shipment?

Yes No
